good netflix series right now: **When a Black Man Loves Wine** Zachary Marcus Cesare Harris, 2025-04-01 This all basically started as a response to someone who was frustrated at certain repeating scenarios combined with the frustrations I see not only in the world of wine, but the U.S. wine market specifically. So, what happens when you take an unapologetic Black guy from West Philly - West Philadelphia born and raised - with a diverse background whose been in many places and spaces that most folks would never imagine who falls in love with wine and learns it from a

different perspective from how many are traditionally taught? Throw him in a scenario where he then puts a wine deal together and sees both the lies and the truths and realizes he could do it better, he just needs the money. Then set him on a course that would introduce him to thousands of wines and winemakers, taking him to portfolio tastings, trade shows and lunches, hosted tours, and B2B experiences from NY to DC in the United States, as well as Italy, Portugal and Spain, making tons of friends and associates along the way. And also uncovering more lies that most people never see. That's one way of looking at what has transpired since I first had some wonderful wines that fateful Friday night in 2006 when I went into Panorama Restaurant for a glass of wine, not knowing where that would lead me. And before I had gotten the idea and inspiration to jump into the industry, I could see so many issues within it, and so many missed opportunities. So these are my thoughts, musings, analysis, critiques, experiences, and revelations. If you want to know about my journey so far, this is for you. If you look like me, and are considering jumping into the wine industry, you want to read this one. If you are trying to sell wines in the US market [or are doing it and could be selling more], give this a read. You might agree, you might disagree, you might laugh and you might get pissed off at various parts of this book. Honestly, you should. But let me tell you one very important thing, I don't hold back, and so you might come away with some different ways of looking at things that you might not have ever considered before.

good netflix series right now: Pop Culture, Politics, and the News Joel Penney, 2022 In *Pop Culture, Politics, and the News*, Joel Penney explores how pop culture news has taken on an important role in contemporary political discourse. Through coverage of topics like Hollywood diversity, celebrity controversy, and cancel culture backlash, entertainment journalism has emerged as a key source of political information and commentary, providing audiences with an accessible lens into some of the most hot-button issues of our time. Yet due to the clickbait economics of the polarized digital news business, the quality of entertainment journalism is often compromised, and consequently, people view pop culture coverage as soft news with little substance or public value. Very little is known about how this journalism is produced and consumed as a component of the digital news ecosystem. Moreover, we lack a measured sense of its potential impact on the political interests and knowledge of its audiences, the politics of the entertainment industry it covers, and the shape of public debate more broadly. Drawing on interviews with entertainment journalists and testimonials from news audiences who share these stories on social media, Joel Penney argues for the importance of reframing our understanding of impactful journalism and persuasive political communication when culture and identity have moved thoroughly to the center of U.S. public discourse. Moreover, Penney examines how audiences engage with this highly accessible and emotionally resonant form of journalism and use it as a resource for political expression and discussion, raising important questions about how it can serve as a bridge to public issue engagement as well as a potential distraction from on-the-ground political concerns. As a cutting-edge, data-rich analysis of the blurring boundaries between entertainment, politics, social media activism, and partisan journalism, *Pop Culture, Politics, and the News* makes a major contribution to public scholarship on the shifting digital information landscape.

good netflix series right now: Kidding Laura Jane Williams, 2018-10-09 Kidding is the new adulting. Consider this your permission slip to relax, laugh, and finally find happiness. At once hilarious, irreverent, and downright inspiring, Kidding shows you how to connect with your inner child to make your mundane, complicated adult life much simpler (and happier). It's a book about using your imagination and creativity to find joy, and about being happier by being who you are—which is to say, by being a big kid at heart. Author Laura Jane Williams argues that you can be an adult but still embrace childlike (not childish) tendencies: you can own your own home and still want to build a pillow fort when the mood strikes; you can pay your bills on time and still snuggle something soft against your face because you're sad; you can run a business and still take time to play. Divided into 40 short lessons, it's an accessible, fun introduction to the self-help world that anyone can stomach. Laura's experience as a nanny to three young, precocious children has transformed her view on life, and in this book she passes along the lessons she's learned from them. Because kids live in the present. They lose themselves in what they love, they show off, and they like themselves. Kids are curious by default, and they don't have limits because they haven't learned they exist yet. Kids do whatever the f*ck they want, precisely because they want to. To put it simply, kids have the answers, man.
