new country music releases this week youtube: Female Highlife Performers in Ghana Nana Abena Amoah-Ramey, 2018-07-27 This book offers a detailed analysis of the history of female musicians in the Highlife music tradition of the Republic of Ghana, particularly the challenges and constraints these women faced and overcame. Highlife – a form of West African music infusing Ghana's traditional Akan dance rhythms and melodies with European instruments and harmonies – grew in popularity throughout the 20th century and hit its peak in the 1970s and 1980s. Although women played significant roles in the evolution and survival of the genre, few of their contributions have been thoroughly explored or documented. Despite being disregarded and ignored in many spheres, female Highlife musicians thrived and became trailblazers in the Ghanaian music industry, making particularly vibrant contributions to Highlife music in the 1970s. This book presents the voices of female Highlife artists and documents the ideological transformations expressed through their musical works, exploring the challenges they confronted throughout their musical careers and their contributions to music and culture in Ghana.

new country music releases this week youtube: I Want to Change My Life Barrie Gunter, 2014-07-24 Competition talent shows have been among the most popular on television in the 21st century. The producers of these shows claim to give ordinary people extraordinary opportunities to change their lives by showcasing a specific skill leading to a new career trajectory. Most participants will claim that they entered to get a big break and to develop a career they have always dreamed of. To what extent do these shows deliver on such promises? Following through what happens to leading contestants in singing, entertainment, modelling, cooking and business entrepreneur competitions, this book shows that few go on to achieve lasting success in their chosen career. Many return to obscurity or to their previous lives. Some enjoy a low level career in the new direction delivered by the competition they entered. Just a few become truly successful. The pop and entertainment themed contests have discovered just a handful of major pop stars and entertainers out of many hundreds who have taken part after the initial auditions. Turning to the cookery or business franchises, there are few who go on to achieve lasting success in their chosen career. In these it is equally likely that the winners go on to enjoy success with media careers rather than as chefs or entrepreneurs. The most successful franchise of all is the fashion model competition (Next Top Model), which has yielded a high hit rate in terms of career success. What the analysis here also reveals is that it isn't only the winners who ultimately benefit the most from their appearances in these shows. Moreover, television picks its own stars by recruiting contestants because they are telegenic or have a good backstory as much as for their relevant talents. In this way, a talent hungry medium has co-opted these franchises to replenish its own needs.

new country music releases this week youtube: The Places of Van Morrison's Songwriting Geoff Munns, 2022-12-21 What can we learn about Van Morrison's life and work as a songwriter through his songs? This book looks closely at the lyrics and music from a selection of his songs. Some are very well-known - 'Brown Eyed Girl', 'Cleaning Windows' and 'The Healing Game'. Others are less familiar. Through these songs the book offers insights into some of the most important ideas that the songwriter has explored across his five-decade plus career, starting from the Them period and extending through his solo albums. These readings show how thinking about Morrison's use of place provides a specific lens that contributes to a greater understanding of his art. The songs are organized into chapters that reflect many of the important places in Morrison's work as he ventured professionally and imaginatively away from the places of his upbringing towards a wider musical world. These places are in city streetscapes and country landscapes - in home places of streets and ditches, in the enclosed spaces of rooms, in the expansive reaches of the natural world, in indeterminate and specific foreign lands. A picture emerges of the journey that Van Morrison details through his songs, one that sees him first wandering as a boy through his East Belfast haunts, and then venturing out to a wider world away from this local place.

new country music releases this week youtube: Easy Listening and Film Scoring 1948-78 Jack Curtis Dubowsky, 2021-05-27 Composers, arrangers, conductors, session musicians, and executives worked in easy listening and scoring, complicating an academic focus that lionizes film music while ignoring or deriding easy listening. This book documents easy listening's connections with film music, an aspect overlooked in academic and popular literature. Fueled by the rise of the LP and home entertainment, easy listening became the largest midcentury commercial music market, generating more actual income for the record business than 7- inch singles. Easy listening roped in subgenres including classical, baroque, jazz, Latin, Polynesian, exotica, rock, Broadway, and R&B, appropriated and reinterpreted just as they were for cinema. Easy listening provided opportunities in orchestral music for conservatory- trained composers. Major film composers such as Henry Mancini and Michel Legrand had a prodigious output of easy listening albums. Critics fault easy listening for structural racisms, overlooking its evolution and practitioners. Easy listening helped destabilize a tripartite record business that categorized product as race records, old time records, or general popular music. Charlie Parker's with Strings records altered the direction of jazz, profoundly influencing other performers, encouraging bold crosspollinations, and making money. The influence of technology and historical contexts of music for work and leisure are explored. Original interviews and primary sources will fascinate scholars, historians, and students of cinema, television, film scoring, and midcentury popular music.
