may upcoming movies 2025: *Sound in the American Horror Film* Jeffrey Bullins, 2024-07-11 The crack of thunder, a blood-curdling scream, creaking doors, or maybe complete silence. This examination of the horror film's soundtrack builds on film sound and genre scholarship to demonstrate how horror, perhaps more than any other genre, utilizes sound to manipulate audience response. Beginning with the Universal pictures of the early 1930s and moving through the next nine decades, it explores connections and contrasts throughout the genre's technical and creative evolution. New enthusiasts or veteran fans of such varied films as *The Mummy*, *Cat People*, *The Day the Earth Stood Still*, *Psycho*, *Halloween*, *A Nightmare on Elm Street*, *Scream*, *The Conjuring*, *Paranormal Activity*, and *A Quiet Place* will find plenty to explore, and perhaps a new sonic appreciation, within these pages.

Elizabeth Alsop explores the director’s non-conformist and uncompromising vision while looking at May’s films against trends in classic and post-classical Hollywood. As Alsop moves through the filmmaker’s four movies, she tracks May’s inventive treatment of favorite themes like hapless male characters and the inanities of American culture. She also considers May’s work in relation to her multifaceted career as a writer and performer. A compelling reconsideration of an iconoclast and original, Elaine May reveals how a surprisingly radical auteur created her trademark cinema of discomfort.
